house Electric Supply Company and R. R. Dewees admitted all of the material allegations set forth in said complaint and waived all intervening procedure and further hearing as to the facts, and the Commission having made its findings as

to the facts and its conclusion that the said respondents have violated the provisions of section 5 of the Federal Trade Commission Act;

It is ordered, That respondent Westinghouse Electric Supply Company, a corporation, its officers, representatives, agents, and employees, in connection with the offering for sale, sale, and distribution of electric cable, electric wire, electric switches, conduit, fittings, condulets, potheads, cableheads, transformers, insulators, lighting fixtures, lamps, and accessories, or other electrical equipment or supplies, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from doing or performing any of the following acts, things, or practices:

1. Conveying or assisting in conveying to buyers or prospective buyers, or to any official or awarding authority of any Federal agency, or to any one contracting with such agency, or to any one acting for or on behalf of such agency or for or on behalf of any contractor with such agency, any representation that any two or more apparent sellers are rival bidders or competitors, when in reality they are acting collusively in preparing and submitting bids.

2. Aiding, assisting, or cooperating in any manner in the submission of any sham, fictitious, fraudulent, or non-competitive bids or price quotations to any buyer or prospective buyer, or to any Federal agency or any one acting for or on its behalf, or for or on behalf of any party purchasing material or equipment in fulfillment of a contract with such agency.

3. Interfering with or assisting in interfering with the procurement or consideration of genuinely competitive bids or price quotations by any Federal agency or any official or awarding authority of such agency, or by any buyer or prospective buyer.

4. Promoting, establishing, carrying out, or continuing any act or practice for the purpose or with the effect of maintaining or presenting a false appearance of competition between or among sellers in the submission of price quotations or bids to buyers or prospective buyers.

5. Arranging or attempting to arrange for the filing of any bid in the name of one ostensibly competing bidder when the prices and terms are in fact determined by some other bidder or when in fact the bid is not a bona fide bid.

Provided, however, That nothing contained in this order shall be deemed to prohibit any lawful action under any lawful license agreement under any patent.

It is further ordered, That, for the reason appearing in subparagraph (b) of paragraph one of the findings as to the facts herein, the complaint herein be, and the same hereby is, dismissed as to respondent R. R. Dewees.

It is further ordered, That the respondent shall, within sixty (60) days after the service upon it of this order,

PART 1010—SUSPENSION ORDERS

[Suspension Order S-562, Reinstatement and Amdt.]

JACKSON UPHOLSTERY CO., INC.

Jackson Upholstery Co., Inc., a New York corporation located at 18 West 18th Street, New York, New York, engaged in the business of manufacturing furniture was suspended on July 1, 1944 by Suspension Order No. S-562. It appealed from the provisions of the suspension order and, pending determination of the appeal, the suspension order was stayed by the Chief Compliance Commissioner on July 25, 1944. The appeal has been considered by the Chief Compliance Commissioner who has concluded that the appeal should be dismissed, the stay terminated as of December 31, 1944, and the Order reinstated as of January 1, 1945 to remain in effect until June 30, 1945. In view of the foregoing:

It is hereby ordered, that: § 1010.562 Suspension Order No. S-562 issued June 2, 1944, and effective July 1, 1944, be and hereby is reinstated as of January 1, 1945; the stay of execution directed by the Chief Compliance Commissioner on July 25, 1944, be and hereby is revoked as of December 31, 1944; and the suspension order be and hereby is amended by substituting the following paragraph (a) for the present paragraph (a):

(a) Jackson Upholstery Co., Inc., its successors or assigns, during the three months' period beginning January 1, 1945, and ending March 31, 1945, shall not use in the production of upholstered furniture more metal upholstery springs than five per cent by weight of the total weight of metal upholstery springs used by it during the year 1941; and during the three months' period beginning April 1, 1945, and ending June 30, 1945, shall not use in the production of upholstered furniture more metal upholstery springs than five percent by weight of the total weight of metal upholstery springs used by it during the year 1941.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-567, Stay of Execution]

RHEIN BROTHERS

Rhein Brothers, a corporation located in Chicago, Illinois, is owned and controlled by the partnership composed of Joseph A. Rhein and Esther R. Rhein, also of Chicago, Illinois, and has appealed from the provisions of Suspension Order No. S-567, issued September 29, 1944, and effective October 1, 1944 (§ 1010.567), and has requested a stay on the ground that irreparable harm would be done his business if the suspension order were not stayed. The Chief Compliance Commissioner has directed that the provisions of the suspension order be stayed pending final determination of the appeal or until further order by the Chief Compliance Commissioner. In view of the foregoing, *It is hereby ordered*. That:

The provisions of Suspension Order No. S-567, issued September 29, 1944 and effective October 1, 1944, are hereby stayed pending final determination of the appeal or until further order by the Chief Compliance Commissioner.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 4, as Amended Nov. 3, 1944]

SALES OF CONTROLLED MATERIALS BY WAREHOUSES AND DISTRIBUTORS

§ 3175.4 CMP Regulation 4—(a)
Purpose and scope. This regulation describes the procedure to be followed by warehouses and distributors in delivering controlled materials from stock (including consigned stock) except that in the case of steel, deliveries from one distributor to another are governed by Orders M-21-b-1 and M-21-b-2.

Steel

(b) Definitions with respect to steel. The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP regulation unless otherwise indicated:

(1) "Steel" means carbon steel, alloy steel, and wrought iron, in the forms and shapes listed in Schedule I of CMP Regulation No. 1.

(2) "Distributor" means any person (including a warehouse, jobber, dealer or retailer) who is engaged in the business of regularly receiving steel into his stock for sale or resale in the form received or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding; but a person who, in connection with any sale, bends, punches or performs any fabricating operation designed to prepare steel for final use or assembly shall not be deemed a distributor with respect to such sale.

(c) *Rejection of orders.* (1) A distributor must reject all orders except those which he is required or permitted to fill under paragraph (d).

(2) [Deleted Jan. 13, 1944.]

(3) A distributor must not accept an authorized controlled material order bearing a specific allotment number which requires a quarterly identification after the end of the quarter for which the allotment was issued, and he must not deliver any steel on such an order earlier than 15 days before the beginning of such period. However, he may deliver steel on an order properly accepted at any time during such quarter or any following quarter. For example, a distributor may accept an order bearing the allotment number N-1-4Q44 any time prior to January 1, 1945, but he may not deliver any material on such an order earlier than September 16, 1944. Orders bearing symbols which do not require a quarterly identification, such as MRO (see Interpretation 25 to CMP Regulation No. 1) are not subject to this provision.

(4) A distributor may reject any order for steel on which the customer does not specify immediate delivery. Even if he elects to accept an authorized controlled material order calling for future delivery, he is not allowed to set aside the steel covered by such order. He must deliver it on any order calling for immediate delivery that he is required to fill under paragraphs (d) (1), (2) or (3), and may deliver it on any order calling for immediate delivery that he is permitted to fill under paragraph (d) (4).

(5) A distributor may reject any order calling for the delivery of steel which he does not have in stock or which he does not know is in transit to his stock.

(6) A distributor may reject all or any part of an order which the War Production Board specifically authorizes him to reject. If a delivery would deplete his stock to a point where his function in the distribution of steel would be seriously impaired, he may apply to the War Production Board for authority to reject the order and may delay filling the order until his application is acted upon.

(d) *Orders which must be filled.* A distributor must fill the following kinds of orders unless he is required or permitted to reject them under paragraph (c):

(1) A distributor must fill all authorized controlled material orders except as provided in paragraph (m) (1).

(2) A distributor must fill orders for delivery to farmers as required by Priorities Regulation No. 19.

(3) A distributor must fill orders bearing preference ratings of AAA.

(4) A distributor may fill other orders as follows, but is not required to do so regardless of whether rated or not:

(i) Orders in amounts of \$25 or less. No endorsement is required on such orders.

(ii) Orders identified by the symbol Z-1E as explained in paragraph (m).

(iii) Orders calling for delivery to one customer during any calendar quarter of not more than 10 tons of carbon steel, 1,000 pounds of stainless steel and 2 tons of other alloy steel, providing such deliveries of any one product group and type to one customer do not exceed the amounts shown below:

	Quantities in pounds per quarter unless otherwise stated		
	Carbon (including wrought iron)	Stainless	Alloy (Other than stainless)
Tool steel, including drill rod	300		300
Mechanical tubing	1,000*	100*	300*
Wire rope and strand	300*		
Music wire	300		
All other steel products	20,000	1,000	4,000

*Feet per quarter.

Each order placed under this paragraph (d) (4) (iii) must be accompanied by or endorsed with both the standard form of certification in CMP Regulation No. 7 and the following sentence: "This order is placed under paragraph (d) (4) (iii) of CMP Regulation No. 4."

The purpose of this paragraph (d) (4) (iii) is to permit persons using small quantities of steel to obtain their requirements without the use of allotments; it is not to allow users of large quantities to obtain steel in addition to their purchases on authorized controlled material orders. Therefore, a person who buys any steel under this paragraph (d) (4) (iii) cannot receive any kind or type of steel from producers or distributors in any quarter in excess of the amounts shown in the above table whether it is received on authorized controlled material orders or otherwise. Consequently, in general, a person should plan to buy all his steel either under this paragraph or on authorized controlled material orders, but not both. Purchases of steel from persons other than producers or distributors do not affect the amount which can be bought under this paragraph. Such purchases are subject to the provisions of Priorities Regulation 13 and paragraph (u) of CMP Regulation No. 1.

Copper

(e) *Definitions with respect to copper.* The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP regulation unless otherwise indicated:

(1) "Copper wire mill product" means bare, insulated or armored wire or cable for electrical conduction made from copper or copper base alloy or copper-clad steel containing more than 20% copper by weight.

(2) "Brass mill product" means sheet, wire, rod or tube made from copper or copper base alloy. This does not include copper wire mill products.

(3) "Warehouse" means any industrial supplier, mill supplier, plumbing supply house, electrical wholesaler or other person engaged in the business of distributing brass mill products or copper wire mill products to industry or trade otherwise than as a controlled materials producer and includes warehouses owned by mills.

(4) "Item of copper wire mill product" means any wire or cable made from copper, copper base alloy or copper-clad steel containing more than 20% copper by weight for electrical conduction which is different from all other items of that form by reason of one or more differences of its specifications, such as size, alloy or insulation. Differences in temper or length do not differentiate items.

(5) "Item of brass mill product" means sheet, wire, rod or tube made from copper or copper base alloy, which is different from all other items of that form, by reason of one or more differences of its specifications, such as size, shape, gauge, thickness or alloy. Differences in temper or length do not differentiate items except in the case of copper and brass sheet, where differences in temper will constitute different items.

(6) "Warehouse stock" means brass mill or copper wire mill products physically located in warehouse inventories, whether owned or held on consignment by the warehouse.

(f) *Delivery of brass mill or copper wire mill products.* (1) *Delivery from warehouse stock.* (i) A warehouse shall fill authorized controlled material orders for brass mill or copper wire mill products, in accordance with this regulation, if it can fill the orders from its stock. In addition, a warehouse may fill orders identified by the symbol Z-1E as explained in paragraph (m). In no case, however, may a warehouse fill an order for brass mill or copper wire mill products unless the purchaser has the right to accept delivery under the provisions of this paragraph (f) which limit the amount of brass mill and copper wire mill products which a purchaser may get from a warehouse. A warehouse is entitled to rely on a certificate furnished by any of its customers under paragraph (f) (1) (iv) of this regulation, unless it knows or has reason to believe the certificate to be false.

(ii) Beginning May 15, 1944 no person shall place orders for delivery from ware-

house stock of any item of brass mill product to any one destination, during any calendar week which aggregates more than 500 pounds gross weight, or, effective immediately, for delivery, during any one calendar month, which aggregate more than 2,000 pounds gross weight and no person shall accept any delivery in excess of these amounts. However, the 500 pound limitation does not apply to a single continuous length of rod, tube, pipe, sheet or strip and neither the 500 pound nor the 2,000 pound limitation applies to condenser tubes or to the resale of brass mill products obtained by brass mill warehouses from surplus inventories under the provisions of Priorities Regulation 13 or WPB Directive 16.

(iii) No person shall place orders for delivery from warehouse stock of any item of copper wire mill product to any one destination during any one calendar month, which aggregate more than 3,000 pounds copper content and no person shall accept any such delivery in excess of this amount, except that this limitation does not apply to the resale of copper wire mill products obtained by copper wire mill warehouses from surplus inventories obtained under the provisions of Priorities Regulation 13 or WPB Directive 16.

(iv) No person shall place an order under this paragraph (f) (1) and no warehouse shall accept an order unless it is accompanied by, or endorsed with, a certificate in the form provided in CMP Regulation No. 7 (or a certificate prescribed by any regulation or order of the War Production Board for use in placing an authorized controlled material order), signed manually or as provided in Priorities Regulation No. 7.

(2) *Shipments direct to customer or to fill specific orders.* If a warehouse wants to order material to fill a specific authorized controlled material order of a customer instead of filling it from stock, it may order the material either for direct shipment to the customer or for shipment via the warehouse, by placing on its order the customer's name and allotment number or symbol. Such an order is to be treated as an authorized controlled material order. The warehouse may not treat the delivery to the customer as made from stock and may not request a replacement. However, in the case of brass mill products, a warehouse may order from another warehouse only if it does not have the material in inventory and needs it for immediate delivery to a customer on an authorized controlled material order. It must state these facts on its order.

(3) *Rejection of orders.* (i) A warehouse must not fill any order for brass mill or copper wire mill products except those which it is required or permitted to fill under paragraph (f) (1) or (f) (2) above.

(ii) A warehouse must not deliver any brass mill or copper wire mill product on an authorized controlled material order except in the quarter for which the allot-

ment appearing on the order is valid. Orders bearing symbols such as "MRO" or "SO" which do not have to bear any quarterly identification may be filled during any quarter, but such orders must indicate when delivery is required if for other than immediate delivery.

(iii) A warehouse may reject any order calling for immediate delivery of brass mill or copper wire mill products which it does not have in stock or know to be in transit to its stock.

(iv) A warehouse may reject an order calling for future delivery. If it elects to accept the order, it must not set aside or hold any material to fill it.

Aluminum

(g) *Definitions with respect to aluminum.* The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP Regulation unless otherwise indicated:

(1) "Aluminum" means aluminum in any of the forms and shapes constituting controlled material as defined in CMP Regulation No. 1.

(2) "Distributor" means any person who has received or proposes to receive physical delivery of aluminum into his stock for sale or resale in the same form, or after performing such operations as cutting to length, shearing to size, sorting and grading.

(h) (1) *Deliveries of aluminum by distributors.* Each distributor shall, to the extent of his available stock, fill authorized controlled material orders, orders bearing the symbol AM, and orders which he has been specifically directed in writing by the War Production Board to fill, and he may fill orders identified by the symbol Z-1E as explained in paragraph (m) (i) except that he may reject any such order calling for delivery at any one time, to any one person at any one destination, of more than 2,000 lbs. of any gage, alloy and size of aluminum sheet, or more than 900 lbs. of any alloy, shape and size of aluminum wire rod or bar, or more than 600 lbs. of any alloy, size or shape of aluminum tubing, extrusions or structural shapes and (ii) except that he also may reject any order from another distributor.

(2) No distributor shall deliver any aluminum except to fill an authorized controlled material order or pursuant to a specific direction of the War Production Board.

(3) The restrictions of this regulation do not apply to aluminum powder, flake, pigment, or paste delivered for the purpose of making paint, ink, or other coating or liquid welding compound. Such aluminum powder, flake, pigment or paste may be delivered by a distributor on rated or unrated purchase orders subject to the provisions of Priorities Regulation No. 1.

General Provisions Applicable to Steel, Brass Mill Products, Copper Wire Mill Products and Aluminum

(i) *Directions to distributors and warehouses.* Each distributor and warehouse shall comply with such directions as may be issued from time to time by the War Production Board with respect to making

or withholding deliveries of steel, brass mill products, copper wire mill products or aluminum, and with respect to the earmarking of stocks of such material.

(j) *Placement of authorized controlled material orders.* A delivery order for steel, brass mill products, copper wire mill products or aluminum, shall be deemed an authorized controlled material order, if but only if,

(1) It is specifically designated as an authorized controlled material order by any regulation or order of the War Production Board; or

(2) It is endorsed with the appropriate certification and allotment number or symbol in the way prescribed by paragraph (s) (3) of CMP Regulation No. 1.

(3) A delivery order for steel, brass mill products, copper wire mill products or aluminum, placed with a distributor or warehouse shall be considered as calling for immediate delivery unless the order specifically provides otherwise.

(k) *Verbal delivery orders.* Any delivery order requiring shipment within seven days may be placed verbally or by telephone by stating to the distributor or warehouse the substance of the information required by this regulation. *Provided*, That the person placing the order furnishes to the distributor or warehouse, within fifteen days after placing the same, written confirmation of the order complying with the requirements of this regulation. In case of failure to receive written confirmation within fifteen days, the distributor or warehouse shall not accept any other order from, or deliver any additional material of any kind to, the purchaser until such written confirmation is furnished. On or before the twentieth day of each month any distributor or warehouse who has received in the prior month a delivery order by telephone, shall notify the appropriate Regional Compliance Office of the War Production Board, of any case in which a purchaser has failed to furnish to him the written confirmation when due.

(l) *Special provisions with respect to AAA orders.* Notwithstanding the foregoing provisions of this regulation an authorized controlled material order placed with a distributor or warehouse bearing a rating of AAA shall be filled in preference to any other authorized controlled material orders regardless of time of receipt.

(m) *Special treatment of "Z" orders—* (1) *Authorized controlled material orders.* A distributor or warehouse must not fill any order identified by a CMP allotment symbol whose initial letter is "Z", unless he will be able to fill all other orders which he has received which he is required to fill under this regulation and which call for delivery of the same items within the next 30 days. In addition, a copper wire mill warehouse may not deliver in any month on "Z" orders more pounds of copper wire than 10% of the amount he delivered during the previous month on all orders.

(2) *Treatment of Z-1 orders identified by the letter "E".* Orders bearing the allotment symbol Z-1E (which are not authorized controlled material orders)

may be placed with distributors and warehouses for certain controlled materials in their stocks. A distributor or warehouse who receives such orders may fill them, but he is not required to do so. If he elects to fill such orders he may do so only in accordance with the following:

(i) A distributor or warehouse, acting as agent for the Metals Reserve Company, may deliver on Z-1E orders without limit any controlled materials owned by the Metals Reserve Company which he receives into his stock, and

(ii) A steel distributor may deliver any steel products from his stock on Z-1E orders, but he may not use such a delivery to support a stock replacement order placed with a producer or another distributor, and

(iii) A copper wire mill warehouse, brass mill warehouse or aluminum distributor may sell in any three-month period a quantity of controlled materials equal to the poundage purchased by him in the preceding three-month period from consumers under the provisions of Priorities Regulation 13, or a quantity equal to the quantity purchased in the current month, whichever is greater, and

(iv) An aluminum distributor may sell items which have been in his stock for 15 days and which he has not been able to deliver on other orders permitted by this regulation.

(3) *How a consumer places a Z-1E order.* A consumer with an authorized production schedule identified by a CMP allotment symbol Z-1 who does not have an allotment or who does not wish to use it, may place orders on a distributor or warehouse for the type of controlled material described above, but must not use the symbol Z-1 without adding the letter "E". The letter "E" is added to identify the purchase as being made out of "excess" stock in a warehouse, and thus to indicate that the purchaser's allotment account does not need to be charged. If he places only the symbol "Z-1" on his order without adding the "E", it is an authorized controlled material order, and must be charged against his allotment account in accordance with CMP Regulation No. 1. A consumer may also obtain steel without using his allotment in accordance with paragraph (d) (4) (i) and (d) (4) (iii), but if he does so, he must not use either the symbol Z-1 or Z-1E on his order.

(n) *Communications.* All communications concerning this regulation should be addressed to the War Production Board, Washington 25, D. C., Ref: CMP Regulation No. 4 (specify whether steel, copper or aluminum).

Issued this 3d day of November 1944.

INTERPRETATION 1

DISTRIBUTORS OF AUTOMOTIVE REPLACEMENT PARTS

The definitions of "distributor" and "warehouse" appearing in paragraphs (b) (2) and (e) (3) of CMP Regulation No. 4 are not deemed to include persons engaged solely in the business of distributing automotive re-

placement parts. Consequently, such persons may sell, for use as automotive replacement parts, such items as bulk or spooled primary and spark plug wire, battery cables and magnet wire without reference to the terms of CMP Regulation No. 4, but subject to the provisions of General Limitation Order L-158 and other applicable regulations or orders (Issued Feb. 27, 1943).

[Limitation Order L-42, Schedule VIII, as Amended Nov. 3, 1944]

RADIATOR SUPPLY VALVES, THERMOSTATIC, FLOAT AND BOILER RETURN TRAPS

§ 3288.20¹ Schedule VIII to Limitation Order L-42—(a) Definitions. For the purposes of this schedule: "Low pressure" means a maximum steam working pressure of 15 pounds per square inch.

(b) Limitations. Pursuant to Limitation Order L-42, the following limitations are established for the manufacture of the heating specialties specified below:

(1) [Deleted Nov. 3, 1944.]

(2) No packless radiator supply valves shall be produced with a metallic bellows or diaphragm.

(3) Nickel or monel metal may be used in the manufacture of low pressure thermostatic radiator and drip traps, combination float and thermostatic traps, boiler return traps, and radiator supply valves, only to the extent allocated or otherwise authorized in Conservation Order M-6-b.

(c) **Use of copper base alloys.** In the production of bodies for radiator supply valves designed for working pressures under 100 pounds per square inch, any copper base alloy used shall be made without the use of any primary copper or tin and shall be of no higher grade than a maximum of 86% copper and 6% tin. A lower grade alloy than indicated shall be used if practical in a manufacturing operation and satisfactory for service use of the product.

(d) **General exceptions.** The restrictions of this schedule do not apply to the production of articles or parts not available in the producer's inventory for use in ships, boats, or planes (when required by the Army, Navy, Maritime Commission, War Shipping Administration, or Coast Guard or by rules and regulations promulgated by the Coast Guard for merchant vessels) or for use in chemical plants, research laboratories, and hospitals (when required by contract specifications other than performance specifications).

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 477; Amdt. 9]

SALES OF RUBBER HEELS AND SOLES IN THE SHOE FACTORY AND HOME REPLACEMENT TRADES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 477 is amended in the following respects:

1. Paragraph (b) of section 18 is redesignated (c), and a new paragraph designated (b) is added to section 18 to read as follows:

(b) *Grades of certain brown and black non-marking heels.* Every manufacturer of brown and black non-marking heels priced under Table II in Appendix A of this regulation and sold in the shoe factory trade after November 2, 1944, shall notify the purchaser in writing of the grade of the heels in question. The grade shall be "BR-A", "BR-B", "BR-C", "BR-D", and "Corded." Such notification shall appear either on the invoice or in the price list sent to the purchaser.

(1) *Meaning of "BR-A", "BR-B", "BR-C", "BR-D", and "Corded."* (1) The symbols, "BR-A", "BR-B", "BR-C", "BR-D", mean brown and black non-marking heels priced under Table II in Appendix A of this regulation and manufactured after November 2, 1944, which can meet the following physical tests:

Grade	Abrasive indices ¹	
	Half heel	Whole heel
BR-A	20	16
BR-B	15	12
BR-C	10	10
BR-D	10	10

¹ A tolerance of 2 allowed on half-heels, grades BR-A and BR-B. The methods of Federal specification FA-ZZ-H-141 and ZZ-R-601a shall be applicable to these specifications.

² "BR-D" heels are all run-of-the-mill heels, not carefully trimmed or inspected.

(ii) "Corded" heels are any heels containing clearly distinguishable whole cords which at any given level lie generally parallel to each other.

2. The heading of Table I, Appendix A, is amended to read as follows: "Table I—Certain Carbon-black Heels and Soles Sold in the Shoe Factory Trade."

3. The phrase "[Prices per 100 pair]" in Table I, Men's Half Heels, is removed from its present location and inserted immediately above the heading "Men's Half Heels."

4. The headings of the following Schedules of Table I are amended by inserting the words "Carbon-black type" immediately above the list prices:

*Copies may be obtained from the Office of Price Administration.

10. A new footnote, designated "8" is added at the end of Table II to read as follows:

* The prices listed in this table are for standardized items only. The prices of specially designed or constructed heels and soles are not included. For sizes or thicknesses which differ from the sizes and thicknesses given in this table for any type of heel and sole and for types of heels and soles not listed in this table, the manufacturer shall add to or subtract from the maximum price for the size, thickness or type in the table which is nearest (or if two, the lower) to the item being priced, the customary dollar-and-cents differential which the manufacturer had in effect during the base period, October 1, 1941 to March 31, 1942, for the two items. Similarity in type means that, for example, if a manufacturer were pricing an orthopedic half heel of a size below 12/13, he should take the dollar-and-cents differential between the orthopedic heel he is pricing and the men's half heel of the same grade which he had in his price lists in the base period, and add that dollar-and-cents differential to the price listed in Table II of Appendix A, for the men's half heel, all sizes to 12/13.

11. A new footnote, designated "9" is added at the end of Table II to read as follows:

* Molded fiber soles. A manufacturer of molded fiber soles may find his maximum price by selecting the comparable item which he produced in the base period and adding to that base period price 5 1/2 cents per pair for men's, and 4 cents per pair for women's sizes. For other sizes and genders, the manufacturer should add to or subtract from, as the case may be, the men's or women's price, the dollar-and-cents differential which existed in the base period between the two sizes and genders.

12. A new footnote, designated "10" is added at the end of Table II to read as follows:

* The maximum prices for youths', little gents', misses' and children's sizes of full soles dinked out of fuel cell, belt and hose scrap shall be the same as that provided for corresponding size and iron of the standard non-marking type. Infants' sizes shall be 1¢ less than children's sizes of the same iron. If a manufacturer did not have a customary differential from October 1, 1941, to March 31, 1942, for sizes not shown in the table he shall determine his price by interpolation.

This amendment shall become effective November 3, 1944.

Issued this 3d day of November 1944.

CHESTER BOWLES,
Administrator.[F. R. Doc. 44-16911; Filed, Nov. 3, 1944;

(c) *Maximum price increases or revisions.* The Price Administrator may by written order increase or revise the maximum price of crude petroleum produced from any pool:

(1) Where the daily average per well production during the month of December, 1943 was less than 9 (42-gallon) barrels, on the following basis:

	Amount of price increase (dollars per 42- gallon barrel)
Less than 5	\$0.35
5 and above but less than 7	.25
7 and above but less than 9	.20

(2) On the basis of the schedule in (c) (1) where the daily average per well production for the 12-month period preceding the date of the application for the increase was less than 9 (42-gallon) barrels and the number of wells used in the computation is determined by dividing by twelve the sum of the number of wells producing crude petroleum during each month of the 12-month period, or

(3) Where the daily average per well production is 9 barrels or more and it is found that (a) because of certain high cost factors, the maximum price for crude oil produced from a particular pool is below the average cost of production and (b) the cost of production is not out of proportion to the output obtainable.

(d) *Pools discovered after January 1, 1944.* No maximum price increase is granted by section 12 to any pool discovered after January 1, 1944. Increases for such pools may be made only by an amendment to section 12 or by an order issued thereunder.

This amendment shall become effective as of October 1, 1944.

Issued this 3d day of November 1944.

Administrator.

[Rev. SR 14 to GMPR, Amdt. 183]

CHANNEL CARBON BLACK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 4.30 is added to read as follows:

SEC. 4.30 Incremental output of easy processing channel carbon black sold to Defense Supplies Corporation—(a) Applicability. (1) Any seller of incremental output of easy processing channel carbon black, produced under the War Production Board program for increasing the supply of such carbon black, may use the maximum prices established by this section in place of his maximum prices established under other provisions of the General Maximum Price Regulation for his sales of such incremental output to Defense Supplies Corporation.

(2) "Incremental output" means output from new facilities. New facilities are:

(i) "New plants," which are:

(a) Plants which did not operate at any time during June 1944.

(b) Plants, or portions of plants, which operated during June, 1944, but have been moved to a new location where gas costs are substantially greater than at the old location and have been set up as a new plant.

*Copies may be obtained from the Office of Price Administration.

(ii) "Expanded plants," which are existing plants (plants in operation at any time during June, 1944), in which the number of burner units in operation has been increased above the maximum number in operation during June, 1944.

(b) *Determination of amount of incremental output.* (1) The amount of incremental output at any new facility shall be determined by actual physical measurement where this is feasible.

(2) Where it is not feasible to separate the incremental output of easy processing channel carbon black produced at a new facility, the incremental output shall be computed by multiplying the estimated yield in pounds per MCF by the number of MCF of supplemental gas used. "Supplemental gas" means the gas used to operate the new facility. The yield estimate shall be based on the new gas acquired for this purpose and shall be made in accordance with customary methods of estimating yield.

The producer shall, prior to sale of any incremental output, the amount of which is determined on the basis of estimated yield, submit in writing to the Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C., a full description of the tests made in arriving at the estimated yield of the supplemental gas; a statement as to the sources of supply of such gas and the amount to be obtained from each source; and the yield figure the producer proposes to use. If within 20 days of mailing this report the producer has not received a written disapproval of the yield figure proposed, the producer may use such yield figure in computing his additional production and maximum prices therefor. The Office of Price Administration may at any time disapprove, or modify, the yield figure proposed, and in doing so may consider the yields obtained by other producers of easy processing channel carbon black using the same gas. The producer may at any time request modification of the yield estimate and submit evidence in support of such request, and such request and supporting evidence shall be considered by the Office of Price Administration, which shall make such adjustment in the yield figure as may be warranted.

(c) *Maximum prices.* (1) The maximum price per pound in covered hopper cars, f. o. b. plant, for sales of the incremental output of easy processing channel carbon black produced at any new facility, shall be the sum of the following items per pound of such incremental output. The computation is to be made in accordance with subparagraph (2) below and reported in accordance with subparagraph (4) below.

(i) Gas cost.

(ii) Gas delivery cost.

(iii) Gas treatment cost.

(iv) Amortization of preparatory expense involved in rehabilitation of existing plants and depreciation.

All items of preparatory expense involved in the rehabilitation of existing plants which, in accordance with good accounting practice and the regulations of the Bureau of Internal Revenue, need not be capitalized, may be written off within a period of not less than one year.

All items of preparatory expense involved in the rehabilitation of existing plants, which in accordance with good accounting practice and the regulations of the Bureau of Internal Revenue are considered depreciable items and the cost of building new plants and moving idle plants to new locations shall be depreciated at normal rates applicable to like items. The Administrator may, on application by the producer, permit the use of a higher than normal rate where he finds that because of particular circumstances applying to the plant such higher rate is necessary to reflect the probable useful economic life of the plant.

(v) Defense Plant Corporation rentals.
(vi) Direct labor cost.

(vii) Other manufacturing costs properly assignable to the incremental output. Such costs include indirect labor, factory supplies, repairs and maintenance of buildings, machinery, and equipment used in the manufacture of incremental output, insurance, property taxes, purchased utility services, and other items commonly associated with factory operations. They do not include depreciation, amortization of preparatory expense, or Defense Plant Corporation rentals.

(viii) Selling and administrative expenses. This includes executive and administrative salaries, office expense, commissions, and other selling expenses, advertising, and similar items, but does not include other excess profits taxes, or charges to war reserves or reserves for contingencies.

(2) *Computation of items specified in subparagraph (1).* (i) Item (viii) shall be taken as equal to the average cost for selling and administrative expense per pound of easy processing channel carbon black produced by the producer at all plants during the first six months of 1944, except that the amount per pound by which the Texas carbon black production tax applicable to the incremental output exceeds 31/240¢ may be added to such average cost in those cases where such tax has not otherwise been included in costs.

(ii) Items (i) to (vii), inclusive, shall be based on actual costs at the new facility during the period covered by the report required in subparagraph (4) below, subject to the following exceptions:

(a) For the first report required by subparagraph (4) below, Items (i) to (vii), inclusive, shall be based on an estimate of costs for the period covered by such first report.

(b) In the case of an expanded plant (as defined in paragraph (a) (2) (ii)), Items (vi) and (vii) shall on all reports be taken as equal to the average cost for such items per pound of easy processing channel carbon black produced at that plant during the first six months of 1944. In those cases where the weighted average wage rate in the plant has increased over the weighted average wage rate at the plant during the first six months of 1944, the labor costs included in such average cost may be adjusted to reflect such increase. Such adjustment shall be made by multiplying the average labor cost per pound during the first six months of 1944 by the ratio of the current

weighted average wage rate to the weighted average wage rate during the first six months of 1944. Any such adjustment shall be shown separately on the report required in subparagraph (4). No adjustment shall be made on account of increases in wage rates not in accordance with War Labor Board regulations.

(c) Where the carbon black producer is also the producer of the gas used, he may use his maximum price for sales of such gas to channel carbon black producers in determining the cost of gas.

(3) *Maximum prices for sales other than in covered hopper cars.* The maximum price for sales by any seller of incremental output other than in covered hopper cars shall be the maximum price determined by the producer in accordance with subparagraphs (1) and (2) for sales in covered hopper cars, plus the seller's dollar-and-cents quantity and container differentials established under other provisions of the General Maximum Price Regulation for sales of easy processing channel carbon black.

(4) *Determination of maximum prices.* (1) Maximum prices computed pursuant to subparagraphs (1), (2), and (3) above for incremental output produced in any period shall be determined separately for each new facility upon the basis of actual operations at that facility during the period. Such maximum prices shall apply to an amount of easy processing channel black sold to Defense Supplies Corporation equal to the incremental output actually produced during the period. Until the end of a period the amount of incremental output to be produced during that period and the maximum prices therefor shall be based on estimated operations during the period. The estimate of output during a period shall be based on expected operations during the period. The estimated price for any calendar month after the first two full calendar months of operation shall be the maximum price determined on the basis of actual operations during the second calendar month preceding the calendar month for which a price is being estimated.

Within 15 days after the end of a period a report of actual production of incremental output during the period and a determination of maximum prices based on actual operations during the period shall be filed in accordance with subdivision (ii) below. The estimated prices shall be adjusted upward or downward in accordance with the determination of maximum prices upon the basis of actual operations. If excess payment has been made, whether because of sales at a price in excess of the adjusted price or because of sales of an amount of easy processing channel black in excess of the incremental output actually produced during the period, the seller shall refund the excess.

A maximum price so determined on the basis of actual operations shall be subject to disapproval in writing at any time by the Office of Price Administration, and if a maximum price reported pursuant to this subparagraph (4) is revised downward by the Office of Price Administration and if any payment has

been made at a price higher than the price approved by the Office of Price Administration, the seller shall refund the excess.

(ii) *Reports.* (a) Prior to making the first delivery of incremental output from a new facility, the producer shall submit a report on OPA Form No. 692-2051 of the output and maximum price on the basis of expected operations during the initial period from the beginning of operations through the end of the calendar month following the first full calendar month of operations at the new facility.

(b) Within 15 days after the end of the initial period the producer shall submit a report on OPA Form No. 692-2051 of actual output during the initial period and maximum prices based on actual operations during the period. The adjustment specified in (i) above shall be made for the entire initial period on the basis of this report.

(c) Within 15 days after the end of the first full calendar month of operations and within 15 days after the end of each calendar month thereafter the producer shall file a report on OPA Form No. 692-2051 of the actual output during the calendar month and the maximum prices based on actual operations during the calendar month. For every calendar month after the initial period, the adjustment specified in (i) above shall be made on the basis of the report of actual operations during that calendar month.

(d) The reports required by this subdivision (ii) shall be filed in duplicate, one copy being mailed to the Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C.; the other to the Defense Supplies Corporation, Washington 25, D. C. Copies of OPA Form No. 692-2051 may be obtained from the Office of Price Administration, Washington 25, D. C.

(d) *Records.* (1) Each producer of incremental output shall keep for each new facility, records of the incremental output at that facility and records of the deliveries of incremental output from that facility, showing the name of the buyer, the number of pounds delivered and date of delivery, the containers in which delivered, and the price charged. Such records shall be kept for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) Each producer of incremental output shall preserve for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, all his existing records relating to the costs of producing and selling channel carbon black during the first six months of 1944.

(3) Each producer of incremental output shall keep books and records relating to the costs of producing incremental output at each new facility and preserve the same for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. Such books and records shall set out the costs in the detail customarily used by the producer

for management purposes, but in all cases in sufficient detail to enable verification of the computation of maximum prices under the provisions of this section 4.30.

(e) *Tolling arrangements.* Where incremental output of easy processing channel carbon black is produced for the Defense Supplies Corporation from supplemental gas furnished the producer by that corporation, the producer shall determine his maximum price for the conversion service in accordance with paragraph (c) of this section, except that in computing a maximum price thereunder no costs shall be included for any items of material or service furnished by the Defense Supplies Corporation. The seller of the conversion service shall keep the records and file the reports required of producers of incremental output by this section.

This amendment shall become effective November 8, 1944.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Section 6.59 is added to read as follows:

SEC. 6.59 *Plug chewing tobacco*—(a) *Modification of manufacturers' maximum prices.* (1) Every manufacturer of an item of plug chewing tobacco may modify his maximum list price established under § 1499.2 of the General Maximum Price Regulation for an item of plug chewing tobacco to an amount ascertained by multiplying such list price by 1.20.

Example: *Per dozen or per lb.*
Manufacturers' present maximum list price..... \$1.16
Multiplied by..... 1.20
Manufacturers' new maximum list price..... 1.39

(2) Every manufacturer of an item of plug chewing tobacco who has modified his maximum list price for such item under (1), above, shall determine the new stated retail price therefor by multiplying the present stated retail price by 1.20. The new stated retail price so determined shall be the new maximum retail price for the item.

Example: *Per cut or per plug*
Present stated retail price..... \$0.10
Multiplied by..... 1.20
New stated retail price..... .12

*Copies may be obtained from the Office of Price Administration.

(b) *Modification of wholesalers' and retailers' maximum prices.* Upon receipt of notification pursuant to (c), below, of a modification of his supplier's list price for an item of plug chewing tobacco (but not before), a wholesaler or retailer may modify his maximum price for the item only in accordance with such notification. The modification shall be applicable to floor stocks. Where his supplier has not modified his maximum list price under (a), above, for an item of plug chewing tobacco, the wholesaler or retailer may not modify his maximum price for that item.

(c) *Notification of modification required.* Every seller (other than a retailer) of an item of plug chewing tobacco, the maximum list price and the maximum retail price of which have been modified in accordance with (a) or (b), above, shall supply each purchaser of the item from him with the following written notice attached to or stated on the invoice covering the first delivery to the purchaser after November 8, 1944:

On our _____ brand (describe item by brand name and sales unit) of plug chewing tobacco we are authorized by the Office of Price Administration to establish a maximum list price of \$_____ per dozen (or per pound). The Office of Price Administration has established a maximum retail price of _____ cents per cut (or per plug) (or _____ cuts (or plugs) for cents). Customary discounts and allowances in effect in March 1942 on your purchases of plug chewing tobacco will not be lowered. Wholesalers receiving this notice are required to give a similar notice to every purchaser to whom they sell or deliver this item of plug chewing tobacco on or before the first delivery to such purchaser. The Office of Price Administration requires that you keep this notice for examination.

(d) *Customary discounts and allowances must be maintained.* A seller's customary discounts and allowances on sales of an item of plug chewing tobacco shall not be less than those given by him during March 1942 on his sales of that item. Every retailer shall maintain his customary price differential allowed by him during March 1942 below the manufacturer's stated retail price.

(e) *State and local taxes.* Maximum prices established under (a), above, are exclusive of state and local taxes upon tobacco products. Sellers may add to those prices the amount of such taxes applicable to the item being priced and paid or payable by them to the taxing authority or to a prior vendor.

(f) *Units of sale.* Maximum prices for items of plug chewing tobacco shall be stated in terms of the same general units (like dozens, pounds, cuts, plugs, etc.) in which the seller has customarily quoted prices for such items.

(g) *Definitions of terms used in this section.* (1) "Plug chewing tobacco" means manufactured plug chewing tobacco prepared from tobacco leaves pressed into flat cakes, flavored, sweetened, and intended primarily for chewing purposes, as defined in Regulation No. 8, relating to taxes on tobacco products, issued by the Bureau of Internal Revenue, United States Treasury Department.

(2) "Item" means a brand and sales unit of plug chewing tobacco.

(3) "List price" means the manufacturer's gross price before discounts and allowances.

(4) "Stated retail price" means the retail price printed or otherwise marked by the manufacturer upon the individual container of a particular item of plug chewing tobacco or, if a retail price is not so marked, then the retail price suggested by the manufacturer for the item in his standard price list.

This amendment shall become effective November 8, 1944.

NOTE: All record keeping and reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Regional and District Office Orders.

[Region I Order G-1 Under MPR 280]

FLUID MILK IN NEW ENGLAND

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional

Administrator of Region I of the Office of Price Administration by § 1351.317a of Maximum Price Regulation No. 280, as amended. *It is hereby ordered:*

(a) This order applies to sales by handlers of fluid milk first physically received from producers at a receiving station or processing plant which is located in New England and which in whole or in part is now or later becomes subject to the provisions of Federal Milk Marketing Order No. 27.

(b) On and after November 1, 1944, regardless of any contract, agreement or other obligation, no handler shall sell or deliver fluid milk in other than glass or paper containers, and no handler or dealer in the course of trade or business shall buy fluid milk in other than glass or paper containers at a price higher than the maximum price permitted by this Order No. G-1; and no handler or dealer shall agree, offer, solicit or attempt to do any of the foregoing.

(c) The maximum price at which a primary handler may sell or deliver fluid milk at wholesale, in other than glass or paper containers, to any purchaser, other than a store, hotel, restaurant or institution, and the maximum price at which any purchaser other than a store, hotel, restaurant or institution, in the course of trade or business, may purchase or receive such fluid milk from a primary handler shall be the applicable maximum price specified below:

(1) When the entire annual output, or a fixed percentage thereof, is sold or delivered to a single purchaser pursuant to a contract therefor, the lower of either of the following:

(i) The contract price, or

(ii) The primary handler's fluid milk cost, plus a mark-up of 25¢ per cwt., f. o. b. primary handler's receiving or processing plant.

(2) Where a stated quantity but less than such entire annual output is sold or delivered to a purchaser pursuant to a contract therefor, the lower of either of the following:

(i) The contract price, or

(ii) The primary handler's fluid milk cost, plus a mark-up of 30¢ per cwt., f. o. b. primary handler's receiving or processing plant.

(3) Where fluid milk in any quantity is sold or delivered to a purchaser for two days or less during any calendar month, and such sale is not made pursuant to any prior contract between the seller and the purchaser, the primary handler's fluid milk cost, plus a mark-up of 40¢ per cwt., f. o. b. primary handler's receiving or processing plant.

(d) A primary handler is permitted to add to the applicable maximum price specified in paragraph (c) hereof, (1) a charge not to exceed 3¢ per cwt. for the sale or delivery of such milk in 40 to 47 quart cans, and (2) an additional charge not to exceed 5¢ per can when such cans are supplied by such primary handler: *Provided*, That such additional charges in all cases must be separately shown and separately stated on the invoice: *And provided further*, That such additional charges may be made only in

those cases where the purchaser voluntarily requests the delivery of fluid milk in cans. The primary handler may not, as a condition for the sale or delivery of fluid milk, require the purchaser to request or to take delivery in cans.

(e) For pasteurizing fluid milk a primary handler may add to the applicable maximum price specified in paragraph (c) hereof, a charge not to exceed 15¢ per can when such milk is sold or delivered in 40 quart cans, or 17¢ per cwt. when such milk is sold in 47 quart cans or by the hundredweight: *Provided*, That such additional charge for pasteurization must be separately shown and separately stated on the invoice.

(f) In the event that a primary handler delivers such fluid milk to a place designated by the purchaser, there may be added to the applicable maximum price established in paragraph (c) hereof, transportation charges not to exceed the lowest of any of the following:

(2) The lowest available contract carrier rate, or

(3) When transportation is provided in trucks owned or controlled by the seller, the reasonable value of such transportation.

(g) (1) The maximum price at which an intermediate handler may sell and deliver fluid milk at wholesale in other than glass or paper containers to any purchaser other than a store, hotel, restaurant or institution, and the maximum price at which any purchaser other than a store, hotel, restaurant or institution, in the course of trade or business, may purchase or receive such fluid milk from an intermediate handler shall be the price at which such fluid milk was purchased from a primary handler in accordance with paragraph (c) hereof, plus can, transportation and pasteurization costs, if any, in accordance with paragraphs (d), (e) and (f) hereof, plus a mark-up no greater than the difference, if any, between the mark-up the primary handler was entitled to take under paragraph (c) hereof and the mark-up the intermediate handler would be entitled to take on the sale by him if such sale had been made by him as a primary handler.

For example, if an intermediate handler purchases the entire annual output of fluid milk in accordance with paragraph (c) (1) hereof, and if such intermediate handler resells such fluid milk in accordance with paragraph (c) (2) hereof, he shall be entitled to the difference between the 25¢ mark-up prescribed in paragraph (c) (1) and the 30¢ mark-up prescribed in paragraph (c) (2). If an intermediate handler purchases fluid milk from a first intermediate interhandler, in accordance with paragraph (c) (2) hereof, and resells such milk in accordance with paragraph (c) (3) hereof, such second intermediate handler shall be entitled to the difference between the mark-up prescribed in paragraph (c) (2) and the mark-up prescribed in paragraph (c) (3). It is the purpose of this section to prevent successive intermediate handlers from ad-

ding successive mark-ups at the full amount permitted by paragraphs (c) (1), (2) or (3) to the end that the aggregate mark-ups taken by all handlers shall not exceed 40¢ per cwt.

(2) The maximum price at which a handler, who commingles fluid milk purchased from producers and other handlers, or from other handlers only, may sell and deliver such fluid milk at wholesale in other than glass or paper containers to a purchaser other than a store, hotel, restaurant or institution and the maximum price at which any purchaser other than a store, hotel, restaurant or institution in the course of trade or business may purchase or receive such fluid milk from such handlers shall be the weighted average price at which such handler purchased all such fluid milk (except that, in computing the cost of fluid milk purchased from other handlers, the mark-up paid by such handler permitted by paragraph (c) (1), (2) or (3) herein shall not be included), plus can, transportation and pasteurization costs, if any, in accordance with paragraphs (d), (e) and (f) hereof, plus the applicable mark-up which a primary handler would be entitled to take under paragraph (c) hereof.

(h) Every broker taking part in a sale of fluid milk by a primary handler or intermediate handler shall be considered the agent of the seller and the amount paid such broker for such sale plus the amount paid the seller for such sale, shall not exceed the maximum price as established herein.
